## Cosmeceuticals APPROACH 1

**celestetic.** is based on scientific research and the latest innovations to create advanced care products.

**celestetic.** uses only the most powerful active ingredients, whose effectiveness has been demonstrated and confirmed by independent scientific studies.

## Long-lasting RESULTS 3

**celestetic.** care products contain a high concentration of active ingredients that enables them to deliver the best results that modern science can offer. These products contain up to 30% active ingredients and straddle the border between classic cosmetics and medicine.

## Pharmaceutical QUALITY 5

Cosmeceuticals are based on active cosmetology. **celestetic.** takes its inspiration from medicine and dermatology and uses effective ingredients that have a genuine biological effect on the skin's cells.

## 2 Scientific INNOVATIONS

Our philosophy is to provide care products that work deep down in the skin to tackle the root of the problem and meet specific needs that actually guarantee results in the long term. Repairing, strengthening and protecting the skin become straightforward using **celestetic.** solutions and the synergy of the ingredients used.

## 4 Effective CONCENTRATIONS

**celestetic.** care products are developed in the laboratory using ingredients of the highest quality to ensure a high level of dermatological tolerance. Our cosmeceuticals contain no parabens, colouring agents or comedogens.

**NO MIRACLES, JUST SCIENCE.**

cosmeceuticals  
**face.**

Our serums and creams have been specially developed to be used together and **combined in synergy** with each other and **without any danger.**

*This means you can adjust the texture to suit your skin type and gear your routine to fit in with your beauty objectives.*

## **The importance of cleansing and preparing your face**

**Every evening**, it is important to remove all of the impurities that have accumulated on your face during the day. The skin renews itself intensively during the night, with cell renewal reaching a peak at around one o'clock in the morning.

During the night, we secrete a small quantity of sebum and the dead skin accumulates, which, once removed using a very gentle cleanser, allows a refreshed, purified skin to appear in the **early morning**, ready to receive your daily skincare.

## **Is a tonic really of any value?**

Using a tonic based on water and active ingredients will remove all traces of impurities from your face – including any makeup residue, but it also focuses the lime from the water. This makes it easier for the active ingredients in your daily beauty routine to penetrate your skin.

A tonic reduces the size of pores, restores your skin's radiance and reinforces the natural process of skin renewal.

# MICELLAR CLEAN

FACE

Micellar makeup remover

## DESCRIPTION

This powerful **micellar makeup remover** removes makeup easily and effectively. Even the most stubborn waterproof makeup disappears in an instant!

It removes the dead cells from the epidermis and ensures that all accumulated impurities (from makeup, sun filters, pollution, toxins and dead skin) are effectively cleaned.

And with its calming, hydrating properties, it softens the skin, eyes and lips, leaving a pleasant, fresh feeling.

## RESULTS

- › Removes (even waterproof) makeup and cleanses the skin
- › Removes dead cells and impurities
- › Hydrates and softens the skin
- › Refreshes and tones
- › Leaves the skin feeling soft and comfortable
- › Also suitable for eyes and lips

## ACTIVE INGREDIENTS

Panthenol (Vit. B5), Niacinamide (Vit. B3), Hyaluronic Acid.

*Enriched with phytoactive ingredients such as Aloe Vera, Camomile, Cucumber, Centella Asiatica & Wild Cherry.*

Anti-aging

## SKIN TYPES

Normal to combined & oily

## SKIN CONCERNS

Acne prone skin (pimples, dilated pores, redness, scars)

## Purifying cleansing foam

200 ml

## DESCRIPTION

This **purifying cleansing foam** that penetrates deep into the skin, **removes makeup** and **purifies the skin** deep down, while at the same time keeping the skin hydrated, thanks to its premium active ingredients.

It removes impurities and blackheads, preventing the pores from becoming blocked.

This smooth, soap-free foam with an airy texture provides an unparalleled feeling of wellbeing and comfort, leaving the skin fresh and radiantly beautiful.

## RESULTS

- > Deep-cleans and purifies the skin
- > Removes makeup and impurities
- > Cleans pores and blackheads
- > Active ingredients hydrate the skin
- > Refreshes and provides a sense of wellbeing
- > Also treats all of the body's other concern areas (back, neckline, etc.)

## ACTIVE INGREDIENTS

Niacinamide (Vit. B3), Panthenol (Vit. B5), Hyaluronic Acid.

*Enriched with phytoactive ingredients such as Aloe Vera.*

# SOFT CLEAN

FACE

## Gentle cleansing milk

### DESCRIPTION

The **Kaolin** in this **nourishing and calming cleansing milk gently removes light makeup and impurities.**

Suitable for all skin types – including the most sensitive – and contains **no fragrance or allergens.** Carefully maintains the skin barrier, while nourishing and smoothing your face.

This gentle and specially formulated skin milk contains more than **35% of beneficial active ingredients** and **restorative oils** leaving your skin looking younger and healthier.

### RESULTS

- › Cleanses gently without damaging the skin barrier
- › Contains no fragrances, alcohol or essential oils
- › Nourishes deep down
- › Softens and cleans the skin
- › Repairs and strengthens the skin barrier
- › Antioxidant properties keep the cells young

### ACTIVE INGREDIENTS

Panthenol (Vit. B5), Niacinamide (Vit. B3), Kaolin (white clay).

*Enriched with phytoactive ingredients such as Centella Asiatica (Gotu Kola), Cucumber & Camomile. Precious oils of Jojoba, Grape Seed, Tsubaki (Camelia Japonica) & Shea Butter*

200 ml

# HYDRA MIST

## SKIN TYPES

All skin types, even the most sensitive

## SKIN CONCERNS

Dull complexion, tired and/or dehydrated skin and mature skin

Moisturising, softening mist that stimulates collagen

100 ml

## DESCRIPTION

This advanced skincare has a **triple action**, thanks to its highly concentrated active ingredients: it **hydrates deep down, calms and softens sensitive** or sensitised skin, while its anti-aging properties **stimulate the production of collagen**.

This **mist** can be used as a conditioning tonic **before applying a serum**. It can also be used throughout the day to give your skin everything it needs to stay young and radiantly beautiful.

## RESULTS

- › Restores the skin's pH
- › Allows serums to penetrate more deeply and promotes their effectiveness
- › Softens and calms sensitive and sensitised skin (after microneedling or treatment)
- › Moisturises the skin in depth
- › Strengthens and protects the skin against attacks from the outside
- › Powerful anti-aging action
- › Activates the natural production of collagen

## ACTIVE INGREDIENTS

Panthenol (Vit. B5), Hyaluronic Acid, Saccharide Isomerate, Niacinamide (Vit. B3), Peptides.

*Enriched with phytoactive ingredients such as Chamomile, Aloe Vera & Centella Asiatica. Fragrance with 100% natural ingredients and allergen-free.*

#### SKIN TYPES

All skin types

#### SKIN CONCERNS

Mixed to oily, skin with imperfections (blackheads, dilated pores, scars, pimples)

Pure

# PURE TONIC

FACE

Toning lotion that restores the skin's balance

#### DESCRIPTION

This **toning lotion purifies, hydrates and repairs the skin**, day after day, so that it becomes healthier, softer, more radiant and matt.

The lotion's exfoliating action removes dead skin cells and impurities (blackheads, makeup residue, pollution, etc.), allowing the skin to breathe and giving you a more luminous complexion.

The formula makes it possible not only **to repair the skin's microbiome** and **regulate the production of sebum**, but it also tackles imperfections and encourages cell renewal.

#### RESULTS

- > Cleanses and purifies the skin
- > Restores the skin's pH
- > Allows serums to penetrate more deeply
- > Softens and repairs the skin barrier
- > Repairs the skin's microbiome and restores its balance
- > Regulates the production of sebum and leaves the skin matt, without drying it out
- > Hydrates the skin and protects it against drying out

#### ACTIVE INGREDIENTS

Panthenol (Vit. B5), Niacinamide (Vit. B3), Hyaluronic Acid, Azeclair™, Saccharide Isomerate.

*Enriched with phytoactive ingredients such as Aloe vera, Microalgae & White Tea.*

*Fragrance with 100% natural ingredients and allergen-free.*

200 ml

#### **Why a serum?**

#### **Treating and perfecting the skin so that it has everything it needs**

A **serum** is a treatment brimming with beneficial ingredients to be applied to a well-cleaned skin.

With its melting texture, a serum penetrates deep into the skin to give it a boost and to administer all of the nutrients it needs.

A serum is applied with light massaging movements so that it penetrates the skin more easily to deliver immediate results, as well as long-term results, such as enhanced elasticity of the epidermis. Imperfections, hydration or anti-aging: depending on your age or the season, you will want to select a serum with different properties.

For **young skin** with imperfections, there are serums with active purifying and moisturising ingredients that regulate the secretion of sebum, purify the skin deep down, while also keeping it well hydrated.

**From the age of 30**, choose serums that are anti-oxidising, hydrating and which encourage collagen to safeguard the youthfulness of your cells, maintain a radiant complexion and help hold back the first signs of aging.

**For mature skin**, it's a question of repairing the damage caused by attacks from the outside and slowing down the skin's aging process. If this is the case, go for an anti-aging serum that smooths and renews the skin, and promotes the production of collagen and elastin to tackle the lack of firmness and suppleness.

# SENSITIVE PERFECT

Serum for sensitive skin

FACE

## DESCRIPTION

Specially designed for **sensitive skin**, this regulating serum **calms irritation** and **soothes redness**.

It hydrates and stimulates the natural production of collagen to strengthen the skin barrier, making it less vulnerable to attacks from the outside.

## RESULTS

- > Calms and soothes the skin with its active anti-inflammatory ingredients
- > Ensures the skin becomes less quickly irritated
- > Soothes any form of redness, regardless of the cause
- > Has an anti-oxidising and antimicrobial effect and gets to work directly on the cause of the redness
- > Stimulates the natural production of collagen

## ACTIVE INGREDIENTS

Hyaluronic Acid,  $\alpha$ -Bisabolol (1%), Arginine, Glycyrrhetic Acid.

*Enriched with phytoactive ingredients such as Physalis Angulata.*

## Multifunctional anti-aging serum

### DESCRIPTION

This ultra-concentrated serum with **multifunctional action** enables you **to reduce all signs of your skin aging**.

Its active ingredients soften wrinkles, brighten blemishes and improve skin imperfections.

After 3 months of treatment, the skin becomes clearer and lighter, as though it has been transformed from the inside out, leaving it beautifully radiant.

### RESULTS

- > Reduces wrinkles by stimulating the natural production of collagen and elastin
- > Speeds up cell renewal to leave the skin smooth and give it a natural shine
- > Corrects imperfections
- > Reduces brown marks and hyperpigmentation caused by the sun (photo-aging)
- > Gets to work on signs of aging

### ACTIVE INGREDIENTS

Vitamin C, Niacinamide (Vit. B3), Co-enzyme Q10, Hyaluronic Acid, Tranexamic Acid.

*Enriched with phytoactive ingredients such as Physalis Angulata.*

# GLOBAL PERFECT+

FACE

Ultra-nourishing anti-aging serum

## DESCRIPTION

This **precious oil** was developed to have a **triple action** for maximum effectiveness: **anti-aging action, nourishing action** and **anti-oxidising action**.

This **serum** nourishes the skin deep down and repairs the skin barrier. Its anti-oxidising properties - including anti-aging oil of **Musk Rose** - **soften wrinkles** and **improve any imperfections of the skin**.

## RESULTS

- › Hydrates and deeply nourishes the skin
- › Strengthens the skin barrier, so that the skin is better able to retain water (TEWL)
- › Leaves the skin more supple and softer
- › Reduces and repairs signs of aging
- › Stimulates the production of collagen and elastin
- › Enhances the skin's gloss and creates a radiant complexion

## ACTIVE INGREDIENTS

Vitamin C & Vitamin E.

*Enriched with phytoactive ingredients such as Oil of Musk Rose & Physalis Angulata.*

⚠ Not suitable during pregnancy (or breastfeeding)

## Advanced purifying serum

### DESCRIPTION

This **serum** is suitable for **dealing with all skin imperfections** (blackheads and pimples).

The strongly concentrated active complex fights the causes of imperfections and **leaves oily skin matt** by tackling the problem at source and **regulating the production of sebum**.

30 ml

### RESULTS

- > Reduces inflammation in the sebaceous hair follicles, the main cause of acne
- > Purifies the skin deep down
- > Speeds up cell renewal for removing blackheads and deposits of sebum
- > Improves the texture of the skin and preserves its natural hydration

### ACTIVE INGREDIENTS

Hyaluronic Acid, Phytic Acid, Arginine, Sodium Salicylate.

Enriched with phytoactive ingredients such as Nettle Leaf & Burdock (Arctium Lappa).

#### SKIN TYPES

All skin types  
⚠ Sensitive skin

FACE

## Serum against pigmentation marks & hyperpigmentation

### DESCRIPTION

This strongly concentrated **serum against pigmentation marks softens age spots, patches caused by the sun and hormonal marks** (e.g. as the result of pregnancy – melasma).

With its powerful active ingredients and liposomal formula, this serum penetrates deep into the skin.

It can also be used as a **targeted treatment**.

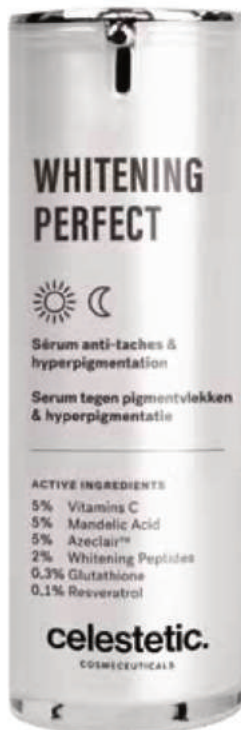

### RESULTS

- > Accelerates cell renewal to remove melanin deposits
- > Acts as an antioxidant to counteract brown patches caused by oxidative stress
- > Slows down and influences the production of melanin to prevent new pigmentation marks from forming
- > Leaves an even skin tone and smooth complexion

### ACTIVE INGREDIENTS

Vitamin C, Almond Acid, Peptides, Glutathione, Resveratrol, Glycyrrhethinic, Bisabolol.

*Enriched with phytoactive ingredients such as Ginkgo, Papaya & Witch Hazel.*

## Regenerating anti-aging serum

### DESCRIPTION

This **serum**, based on **Hyaluronic Acid** and epidermal growth factors (**EGF**), penetrates quickly and deeply into the epidermis to stimulate the production of collagen and cell renewal.

Ideal for **post-peeling, microneedling** and **dermabrasion**.

### RESULTS

- > Acts on visible and invisible signs of skin aging
- Plumps the skin and reduces wrinkles
- > Rejuvenates the epidermis by accelerating cell renewal
- > Blurs scars and skin imperfections
- > Makes the skin more supple and firmer to help stop the skin from sagging

### ACTIVE INGREDIENTS

Copper Tripeptides, Hyaluronic Acid, Vitamin B3, EGF (of Epidermal Growth Factor).

# C PERFECT

## Serum 30% Vitamin C

FACE

### DESCRIPTION

This **serum**, which has a very high concentration of **Vitamin C**, contains the equivalent of **3.000 oranges** in the most efficient form for the skin: **3-O Ethyl Ascorbic Acid**.

This form of **Vitamin C** is much more stable, fat-soluble and penetrates the epidermis more easily, quickly producing visible and lasting effects.

This serum can be used to treat a range of concerns, such as **blemishes, dull and tired complexion, wrinkles and imperfections**.

⚠ This serum is strongly concentrated and should be used as a course of treatment for a maximum of 30 to 60 days only.

### RESULTS

- › Leaves a radiant complexion and healthy-looking skin
- › Evens out the complexion and helps to make marks fade
- › Protects against free radicals and oxidative stress
- › Helps repair wrinkles and faint lines
- › Makes the skin more supple and stronger
- › Moisturises the skin and restores natural hydration

### ACTIVE INGREDIENTS

30% Vitamin C & Lactic Acid.

30 ml

### Why a specialised treatment for the eyes?

The **contours of the eyes** are the 1<sup>st</sup> places that can betray our age. Faint lines, circles, drooping eyelids or bags under the eyes: the area around our eyes can be put severely to the test.

To alleviate the signs of aging or fatigue, you should ideally opt for a treatment that strengthens the capillaries (small blood vessels), relieves the contours of the eyes, removes the blood pigments responsible for creating dark circles and makes the lines

around the corners of the eyes disappear.

The skin around our eyes, which is very thin and highly sensitive, has to ensure a lot of stress caused by the countless movements of the eyes. That's why they need special attention and specific products.

Because the skin around the eyes has fewer sebaceous glands, collagen and elastin, it does not renew itself so quickly. This explains why the contours of the eyes are more susceptible to the skin becoming slack.

**EYE PERFECT** from **celestetic**. offers you a formula with a high concentration of powerful active ingredients that visibly tone, smooth and rejuvenate the contours of your eyes.

#### SKIN TYPES

All skin types

#### SKIN CONCERNS

All skin concerns  
(Wrinkles, bags & circles)

# EYE PERFECT

FACE

## Eye contour serum

### DESCRIPTION

This **serum for dark circles, bags and wrinkles** has been specially developed for the **contours of the eye**.

The principle for the way it acts is based on strengthening the capillaries, lymphatic drainage and removing the blood pigments that are responsible for creating dark circles.

The **Caffeine acts on any puffiness** by combating fat and improving the appearance of the eyelids. As a result, the puffiness is visibly reduced.

The **Carnitine** and **Peptides reduce dark circles** while the **Hyaluronic Acid hydrates the contours of the eye** in depth.

### RESULTS

- › Refreshes and stimulates the microcirculation
- › Combats puffy and fatty bags under the eye
- › Makes dark circles and capillaries less visible
- › Hydrates the contours of the eye
- › Restores the sparkle to the eyes
- › Tightens the skin around the eyes
- › Fights wrinkles, lines and crow's feet
- › Leaves the skin strong and supple

### ACTIVE INGREDIENTS

Peptides, Hyaluronic Acid, Marine Complex of Plankton, Carnitine, Escin, Vitamin F.

*Enriched with phytoactive ingredients such as Caffeine, Centella Asiatica & Ivy.*

15 ml

### Hydrate, Protect, Regenerate

After applying the serum to the contours of your eyes, it's time for the next essential step in keeping your skin healthy and radiantly beautiful: **your day cream.**

This is a vital step in maintaining the natural hydration of your skin in stand, but also for providing additional hydration and protection against external attack (air-conditioning, heating, stress, pollution, free radicals, etc.).

You select a cream depending on **your skin type** and **skin concerns**. An oily to combined skin benefits from a mattifying cream, whereas a richer cream is preferable for dry skin.

### A day cream for every season

Depending on the time of year, the things that attack your skin from the outside can vary. So it is strongly recommended that you adjust the cream you use accordingly (2 to 4 times a year).

**In winter**, the cold and dry air take the moisture out of the face. And the heating and air-conditioning at the office and in the car can often make it even worse. When this happens, a hydrating cream with a richer texture or precious oil is essential for protecting and strengthening your skin.

**In summer**, the air is more moist. That's when you should choose a light day cream – and don't forget a sun filter to protect you against UV radiation – which is an important factor in skin aging.

### Protection against damage caused by the sun's UV rays

If your day cream does not contain a UV filter, you will want to apply a protective cream after this next step. To ensure that UV rays do not damage your skin and cells, it is advisable to apply a sun cream as soon as the UV index level is higher than 3.

When you are exposed to the sun, two types of UV radiation are fired at your skin: UV A rays and UV B rays.

Whereas UV A rays penetrate deep into the dermis and accelerate skin aging, UV B rays stop on the surface of the skin, where they cause sunburn.

### The 4 levels of sun protection that block UV rays to a greater or lesser extent

SPF 15	limited sun protection factor, stops <b>93%</b> of UV rays
SPF 30	average sun protection factor, stops <b>95%</b> of UV rays
SPF 50	high sun protection factor, stops <b>98%</b> of UV rays
SPF 50+	very high sun protection factor, stops <b>+99%</b> of UV rays

Choose a sun protection factor depending on your skin type, the sensitivity of your skin and the type of exposure to the sun: the skin on your neck and neckline is very thin and contains few sebaceous glands. This means it is very sensitive to UV radiation. So don't forget to apply sun cream there!

*It is advisable to apply day cream with circular movements to the face to stimulate the blood circulation and create a radiant complexion.*

### Renewing the skin with a chemical peeling

Removing dead and damaged skin cells is an essential step for rejuvenating your skin. Regular peeling of the skin releases new, younger and healthier cells.

**Result:** your complexion becomes lighter and smoother as it gets more oxygen.

Recently, the widely available mechanical scrubs that are too abrasive for the skin have made way for much more gentle exfoliants: **chemical peelings**.

These peeling processes, based on fruit acids, powerful and natural exfoliants, remove the impurities and dead skin cells from your face and ensure that your skin can breathe better and is able to renew itself better.

# HYDRA CARE

Hydra

## SKIN TYPES

All skin types

## SKIN CONCERNS

Dull complexion, lines, stressed skin, tired skin that doesn't feel comfortable

## Hydrating cream for in-town protection

## DESCRIPTION

This **light, hydrating, refreshing and anti-oxidising cream** revitalises and protects your skin against the first signs of aging, thanks to the beneficial effects of its active ingredients.

Through its active ingredients that protect the DNA, this cream also **prevents you from suffering attacks from the world around us** and damage caused by pollution, cigarettes and various toxins in the air.

Say goodbye to dull skin and signs of fatigue and make room for a new, radiant complexion.

## RESULTS

- › Gives your skin optimum hydration
- › Prevents and corrects the early signs of aging
- › Restores your skin's natural glow
- › Revitalises the cells and gives them new energy
- › Leaves the skin looking radiant and healthy
- › Protects against pollution, cigarettes and other toxins

## ACTIVE INGREDIENTS

Hyaluronic Acid, Co-enzyme Q10, Saccharide Isomerate.

*Enriched with phytoactive ingredients such as Pomegranate, Artemisia, Astaxanthin, Pink Snow Algae, Blueberry, Jojoba & Shea Butter.*

# ULTIMATE CARE

Multi-action anti-aging cream

## DESCRIPTION

This **multi-action anti-aging cream** enables you to prevent the advanced signs of aging and repair the skin (**deep wrinkles**, and also **loss of firmness**).

The cream stimulates the natural production of **Collagen, Hyaluronic Acid** and **Elastin** so that your skin retains its youthfulness, leaving with a radiant complexion.

## RESULTS

- > Reduces lines and deep wrinkles
- > Repairs the skin's suppleness and firmness
- > Leaves the skin smoother and more beautiful
- > Anti-oxidising properties provide protection
- > Restores the skin's natural glow and radiance
- > Suitable for the neck, neckline and hands
- > Reduces a double-chin

## ACTIVE INGREDIENTS

Vitamin C, Vitamin E, Niacinamide (Vit. B3), Hyaluronic Acid, Peptides (incl. EGF), Ceramides, Apple Stem Cells,  $\alpha$ -Liponzuur.

*Enriched with phytoactive ingredients such as Caffeine, White Tea, Ginkgo & Complex of Wild Rice.*

All skin types, except sensitive skin and during pregnancy (or breastfeeding)

**SKIN CONCERNS**

Impurities, pigmentation & signs of aging

Hydra

Anti-aging

# ACTIVE PEEL

## Restoring, smoothing and nurturing night peeling

**DESCRIPTION**

This **night cream** is extremely effective against **imperfections**, with its **powerful anti-aging action** and **skin renewing effect from the 1<sup>st</sup> application**.

This night cream accelerates skin renewal thanks to its strong concentration of **Almond Acid (12%)**.

This skin is exfoliated and imperfections are removed, leaving it smoother and with more volume.

See marks fade, night after night, while the skin becomes increasingly supple.

⚠ The skin needs to become accustomed to **Salicylic Acid**: begin with a small amount and gradually increase the amount you apply.

1x/month to maximum 2x/week depending on your skin type. Ask your Skin Expert for advice.

Using a **cream with sun protection is mandatory for 3 to 5 days**.

**RESULTS**

- › Exfoliates the skin with fruit acids (AHA and BHA)
- › Corrects imperfections and helps eliminate blackheads
- › Nourishes the epidermis and restores its volume
- › Acts on the signs of aging

**ACTIVE INGREDIENTS**

Almond Acid, Salicylic Acid, Glucosamin, Niacinamide (Vit. B3).

*Enriched with phytoactive ingredients such as Avocado Oil & Jojoba.*

50 ml

A **beauty routine** can only be effective if it is tailored to your skin and repeated **every morning and evening for 2 to 3 months** to achieve optimum effect and visible results.

Although the **regular application** of the routine is essential for seeing results, the **active ingredients** contained by the treatments you choose, must also **be suited to your needs and your skin type.**

To prevent or treat the appearance of imperfections, we have included the **essential steps** you need to follow each day to have a healthy and radiant skin.

BODY

# ULTRA SCRUB

## SKIN TYPES

All skin types

## SKIN CONCERNS

Lack of firmness,  
cellulite & orange peel skin

## Smoothing & slimming scrub

### DESCRIPTION

This **body scrub** gently removes all dead skin cells, while stimulating the blood circulation to produce a revitalised skin.

With its slimming and anti-cellulitis complex, **Liporeductyl®** flattens orange peel skin and removes fatty deposits.

It works in two different ways:

- > by fighting fatty deposits (lipolytic effect).
- > by improving the microcirculation that is responsible for cellulitis (venotonic effect).

Ideal **complement** to a **slimming** or **firming** treatment.

200 ml

### RESULTS

- > Exfoliates and leaves the skin smooth
- > Improves hydration and elasticity
- > Promotes microcirculation and lymph drainage
- > Improves and works deep down on orange peel skin and, bumps and cellulite
- > Reduces extracellular fluid and body fat
- > Inhibits adipocyte maturation

### ACTIVE INGREDIENTS

Liporeductyl® (including Peptides, Carnitine, Escin).

*Enriched with phytoactive ingredients such as Centella Asiatica, Aloe Vera, Ivy & Caffeine. Based on Baobab seeds - 100% ecological, biodegradable and do not pollute the water.*

#### SKIN TYPES

Alle huidtypes

#### SKIN CONCERNS

Irritated skin,  
ideal before & after  
exposure to the sun

# HYDRA REPAIR

## Restorative & soothing hydrating cream

### DESCRIPTION

This body **cream** provides in-depth, soothing hydration. It immediately soothes the skin **after shaving, waxing, laser or pulsed light depilation**, as well as **after exposure to the sun**.

Enriched with **Silymarin**, a powerful antioxidant, it protects against the oxidative stress caused by UV radiation, inflammation and damage to the skin. Also recommended **before exposure to the sun** to firm **your skin** and **protecting** it against the damage caused by UV radiation through lengthy exposure to the sun.

### RESULTS

- › Hydrates and restores the skin's natural hydration
- › Soothes redness, irritation, burning sensation
- › Repairs damage caused by the sun and UV rays
- › Protects against the damage caused by UV rays before lengthy exposure to the sun

#### ACTIVE INGREDIENTS

Hyaluronic Acid, Collagen.

*Enriched with phytoactive ingredients such as Silymarin, derived from the Milk Thistle.*

BODY

200 ml

# ULTRA SLIM

## SKIN TYPES

All skin types

## SKIN CONCERNS

Cellulite, orange peel skin, heavy legs

## Smoothing & draining cream against cellulite

200 ml

## DESCRIPTION

Specially formulated to treat all signs of cellulite, such as bumps, orange peel skin and moisture retention.

This **anti-cellulite cream** promotes the destruction of fat deep down and improves lymph drainage to increase the natural breakdown of triglycerides and stimulate collagen production to create a skin-tightening effect.

## RESULTS

- > Leaves the skin smooth and helps remove cellulite
- > Prevents cellulitis from occurring
- > Encourages the microcirculation
- > Promotes lymph drainage
- > Stimulates collagen production
- > Has a tightening effect on the skin
- > Sculpts the body shape

## ACTIVE INGREDIENTS

Lactic Acid, L-Carnitine.

*Enriched with phytoactive ingredients such as Mint, Caffeine & Almond Oil.*

#### SKIN TYPES

All skin types

#### SKIN CONCERNS

Sagging skin, lack of firmness, fatty deposits

# ULTRA FIRM

## Firming cream

### DESCRIPTION

The aim of this **firming cream** is to promote the destruction deep down of localised fat (lipolysis) and to make the skin firmer.

Ideal for people who have undergone slimming treatment (such as a diet, sudden weight loss, cryolipolysis) and want to firm up areas of sagging skin.

A light cream developed as a genuine serum for intensely hydrating, firming and revitalising the skin.

### RESULTS

- > Makes the skin denser, fuller and tighter
- > Improves the elasticity of the skin tissue
- > Strengthens the skin and leaves it soft
- > Promotes renewal of the dermis
- > Lipolytic action that stimulates the elimination of fatty deposits and prevents new fat cells from appearing

### ACTIVE INGREDIENTS

Peptides, Hyaluronic Acid, Glycolic Acid, L-Carnitine.

*Enriched with phytoactive ingredients such as Caffeine.*

Slimming

**CONCERNS**  
Weight loss

# WEIGHT CONTROL

## Burning fat for weight control

### DESCRIPTION

This **dietary supplement** acts on **the metabolism, drainage and intestinal transit**. It also helps to burn fat to facilitate **weight loss** and to **refine body shape**.

### RESULTATEN

- › Helps to burn fat
- › Improves the metabolism
- › Promotes the breakdown of lipids and weight loss
- › The anti-cellulite action helps treat orange peel skin
- › Natural draining product, promotes microcirculation and inhibits moisture retention

90 capsules

### PHYTOACTIVE INGREDIENTS

#### Green Tea

*Green Tea extract boosts the burning of fat. Green Tea also acts on the distribution of fat in the body. In particular, it reduces the visceral fat stored around the stomach.*

#### Guarana

*Guarana seed extract, an outstanding fat-burner, helps to speed up the basic metabolism (or calorie consumption at rest) by activating the hormones that promote the burning of fat to supply the body with energy.*

#### Grape Marc

*Grape marc acts as a natural draining substance, removing moisture retained in the tissue. In this way, it tackles cellulite and moisture retention to refine the body shape. Thanks to these venotonic properties, it prevents the slowing down of the microcirculation, which is the cause of cellulite.*

#### Chicory Root

*The Chicory Root, rich in prebiotics and an outstanding source of fibre, has a fat-burning effect. This has a mildly diuretic, cleansing and tonic effect. It also promotes the development of healthy bacteria in our intestinal flora.*

**Vitamin:** an organic substance, in small quantities, necessary for the body to function properly, but which it is not able to synthesise without input from outside sources through food. 13 vitamins are essential for humans: 4 fat-soluble vitamins (vitamins A, D, E and K) and 9 water-soluble vitamins (vitamin C and 8 B vitamins).

**Amino Acids (AA):** AA are structural ingredients of proteins. Each amino acid and its position give the protein a specific function. There are more than 100 AA, although humans can only synthesise 22 of them. These are so-called non-essential AA. The other AA are essential, because they have to be ingested through food.

**Peptide:** a peptide is a short chain of amino acids linked together by peptide bonds. It consists of at least 2 AA. When a peptide has more than ten AA, it's called a protein. A protein can also be a combination of peptides.  
(2 to 60 AA = peptides / >60 AA = protein)

**Enzyme:** an enzyme is a protein that can catalyse (accelerate) a chemical reaction. Enzymes play an essential role in various physiological processes, such as digestion, synthesising hormones, the healing of wounds or regeneration of the skin.

TONE  
& FIRMNESS

REGENERATION  
& REPAIR

HYDRATATION,  
& CONFORT

#### WHY AN ACTIVATED CHARCOAL MASK?

The skin is damaged by the aggression of free radicals and pollution on a daily basis. The result is a dull complexion, imperfections, dehydration and wrinkles.

- ✓ **Purifies the skin:** Charcoal eliminates toxins and deeply purifies your skin, particularly blackheads and blackheads.
- ✓ **Gentle exfoliation:** The 3D architecture of the marine polysaccharide pearl allows the gradual, non-abrasive release of the charcoal through mechanical movement, providing gentle exfoliation.
- ✓ **Radiance boost:** By eliminating impurities, tightening pores and working in synergy with the other active ingredients, charcoal leaves the face luminous and radiant.

15

New !

## A unique texture

### Radiance Mask

50ml

#### ACTIVE INGREDIENTS

4% Activated Charcoal  
4% Niacinamide (Vit. B3)  
2% Panthenol (Vit. B5)  
1% Saccharide Isomerate  
1% Prebiotic Peptides  
0,1% Silymarin

#### BENEFITS

- + Optimum concentration of active ingredients
- + Synergistic effects between active ingredients
- + Active ingredients that strengthen the skin and protect DNA

#### UTILISATION

- > Suitable for all skin types
- > Works actively on the skin
- > Apply to a clean face, massage in and leave on for 10 to 15 minutes. Rinse thoroughly
- > 1x / week

16

New !

## Targeted active ingredients

### Radiance Mask

*"Since I've been using the Radiance Mask, my skin is much clearer than before. Its light, easy-to-apply texture gently exfoliates my skin, so I don't have to worry about my skin becoming sensitive after a scrub. What's more, this is the first time I haven't used a cream after a mask, so there's no need - my skin doesn't feel tight and is, on the contrary, supple and soft!"*

- Olivia, 28 years old

#### Activated Charcoal

- > Regulation of excess sebum
- > Anti-bacterial effect
- > Detoxifying properties
- > Tightens pore size
- > Radiance boost thanks to healthy skin

#### Niacinamide (Vit. B3)

- > Protects and restores the skin barrier
- > Anti-ageing action
- > Regulates sebum production
- > Reduces skin hyperpigmentation

#### Panthenol (Vit. B5)

- > Soothing and moisturising properties
- > Helps the skin to regenerate

#### Saccharide Isomerate

- > Helps to exfoliate the skin by pushing dead skin cells out of the skin more easily
- > Maintains and contributes to the skin's deep hydration

#### Prebiotic Peptides

- > Anti-ageing action
- > Protects the skin barrier
- > Helps combat external aggressions
- > Helps to restore balance to the skin's microbiome and combat imperfections

#### Silymarin

- > Protects the skin against photoageing
- > Soothing and moisturising properties

17

## Nourishing and unifying protective cream

### Ultimate Protect SPF30

- > Protects the skin (UV filters and antioxidant properties)
- > Nourishes and prevents skin dryness
- > Repairs the skin barrier and restores the skin's microbiome
- > Prevents the appearance of spots and hyperpigmentation
- > Evens out tanning and skin tone
- > Anti-ageing and the fight against free radicals

Specially designed for

- ✓ **Types:** normal and dry skin
- ✓ **Problem:** sensitive and mature skin

## Youth Protection Cream

### DNA Protect SPF50+

Its complex of innovative active ingredients work in synergy to support the process of protecting and repairing the skin and its DNA.

- + **Repairs and protects DNA:** Thanks to its main active ingredient, probiotic ferment, and its DNA repair complexes, the skin will be repaired and protected from everyday aggressions.
- + **Reinforced antioxidant action:** The different active ingredients combined together exert an overall antioxidant action for stronger, healthier skin.
- + **Moisturises and nourishes the skin:** The various active ingredients help to reinforce and protect the skin's moisture levels, which tend to be lost with age and the seasons (wind, sun, etc.).

+ **Ideal post-care**

#### DESCRIPTION

Light day cream anti-ageing and blemish-fighting with UVA & UVB SPF 50+ filters

#### ACTIVE INGREDIENTS

5% Probiotic Ferment

2% DNA Repair Complex

Silymarin  
Resveratrol  
Beta-Glucan  
DMC

celestetic. | 21

New !

## Targeted active ingredients

### DNA Protect SPF50+

#### Probiotic Ferment

They repair and strengthen the skin against the action of environmental aggressors

- > Regulating the balance of the skin microbiome
- > Skin relief thanks to anti-inflammatory properties
- > Maintaining hydration
- > Sebum regulation
- > Repairing action on the signs of ageing

#### DNA Repair Complex

##### Silymarin

- > Protects the skin against photoageing
- > Anti-inflammatory role
- > Prevents cell degeneration

##### Bêta-glucane

- > Prevents cell damage
- > Boosts the skin barrier
- > Stimulates cellular immunity
- > Prevents skin ageing

##### Resveratrol

- > Powerful antioxidant action
- > Protects DNA from premature ageing

##### DMC

- > Anti-ageing action on the skin
- > Preserves the integrity of the extracellular matrix

#### WHY A PROBIOTIC CREAM?

Probiotics are complex sugars that feed the skin's microbiome. The skin's microbiome plays a very important role in combating external aggression (pollution, UV rays) and internal aggression (stress, hormones). These daily aggressions can upset this microbiome and create undesirable effects for the skin.

- ✓ **Improved skin barrier:** Probiotics reinforce the balance of the microbiome, which is the skin's first line of defence against these aggressions.
- ✓ **Soothing properties:** Probiotics will help reduce skin sensitivity and soothe irritation.
- ✓ **Reinforced hydration:** Probiotics keep the skin hydrated and also play an important role in regulating sebum production.
- ✓ **Improved firmness and elasticity:** Probiotics help reduce the signs of ageing by stimulating collagen production and improving skin elasticity.

Novelty !

## The new hyper-moisturizing and anti-aging serum, H.A. Perfect

### WHY A HYALURONIC ACID SERUM?

Studies have shown that by the age of 50, the skin may have lost up to 50% of its hyaluronic acid.

- ✓ **Skin hydration:** Hyaluronic acid is a natural moisturizer that can help retain water in the skin, which can help prevent dryness and wrinkles.
- ✓ **Strengthening the skin barrier:** Hyaluronic acid will help reduce skin sensitivities and soothe irritations.
- ✓ **Reduction of fine lines and wrinkles:** Hyaluronic acid can help reduce the appearance of fine lines and wrinkles by plumping up the skin and stimulating collagen production.
- ✓ **Improved firmness and elasticity:** Hyaluronic acid will improve the natural production of elastin and activate fibroblasts.

celestetic. | 10

## Cosmeceuticals

### H.A. Perfect

#### ADVANTAGES

- ✓ **High concentration of Hyaluronic Acid:** to offer more intense hydration and more visible results on the skin.
- ✓ **Advanced formulation:** which includes other active ingredients to improve the effectiveness of the formula to promote natural skin health and cell renewal.
- ✓ **Hyaluronic acid quality:** from reliable sources and superior pharmaceutical quality to ensure maximum purity and efficacy and optimal safety for the skin.
- ✓ **Combination of different molecular weights:** to ensure hydration at several levels of the skin, on the surface as well as in depth, thanks to optimal absorption.

30ml

#### DESCRIPTION

Moisturizing and anti-aging serum with hyaluronic acid

- + Different molecular weights used together in one formulation to maximize benefits :
  - > moisturize the surface of the skin
  - > while stimulating collagen production
  - > and improving skin firmness and elasticity in depth.
- + Synergy with other moisturizing and skin-care active ingredients to restore and protect the overall appearance of the skin.

#### 25% ACTIVE INGREDIENTS

7% Hyaluronic Acid (High / Medium / Low Molecular Weight).

- 13% Hydrating Complex
- 3% Anti-aging Peptides
- 1% Prebiotic Peptide
- + Pink Snow Algae
- + Beta-Glucan

celestetic. | 12

### 7% Hyaluronic Acid

- > **High MW (1.000 - 1.800 kDa)** : moisturizing properties and protective barrier that helps retain water (><TEWL).
- > **Medium MW (100-1000 kDa)**: help smooth the skin and reduce the appearance of fine lines.
- > **Low MW (< 100 kDa)** : deeply moisturizing properties and help stimulate the skin's production of natural collagen and hyaluronic acid, to improve firmness and elasticity.

### 3% Anti-aging Peptides

- > Stimulates collagen production in the skin, helping to reduce the appearance of fine lines and wrinkles.

### 1% Prebiotic Peptide

- > Helps support the skin microbiome, to improve the overall health and appearance of the skin.

### Beta-Glucan

- > Soothing and moisturizing properties
- > Helps improve the skin barrier
- > Reduces the appearance of fine lines and wrinkles

### 13% Hydrating Complex

- > **Glycerin** : Helps keep skin hydrated and plump, as well as improve the skin's barrier function.
- > **Propanediol** : Helps moisturize and smooth the skin. Also improves the diffusion of other active ingredients.
- > **Biosaccharide** : hydrating. It helps soothe and calm the skin. It can also be a protective barrier against external aggressions.
- > **Trehalose** : Natural sugar that helps moisturize and protect the skin, as well as improve its barrier function.
- > **Aloe Vera** : anti-inflammatory and soothing properties. Helps reduce redness and irritation, and provide hydration.

### Pink Snow Algae

- > Antioxidant properties
- > Helps protect skin from environmental stressors
- > Also helps improve skin hydration levels

celestetic. | 13

## New formula !

# The C Perfect serum, for a highly concentrated vitamin cure

### SYNERGY BETWEEN VITAMIN C AND ANTIOXIDANTS

Vitamin C plays an essential role in collagen synthesis by stimulating the production of new collagen fibers and helps maintain the structure and elasticity of the skin.

- ✓ **Promote collagen synthesis** : By promoting collagen synthesis, vitamin C can help improve the overall texture and firmness of the skin, reduce the appearance of fine lines and wrinkles, and improve tone.
- ✓ **Reduce hyperpigmentation** : Vitamin C has skin-lightening properties and can help reduce the appearance of hyperpigmentation by inhibiting melanin production.
- ✓ **Protect against the harmful effects of free radicals** : By neutralizing free radicals, vitamin C can help prevent premature aging and improve overall skin health.

celestetic. | 14

# Cosmeceuticals

## C Perfect

30ML

- ✓ **Optimal concentration of Vitamin C** : Anti-aging effect. A powerful antioxidant, the skin can absorb and use between 15 to 20% vitamin C, in order to prevent signs of premature aging, such as wrinkles, fine lines and loss of firmness.
- ✓ **High level of antioxidants** : Protection against environmental damage and free radicals caused by UV rays, pollution and other external aggressors.
- ✓ **Synergistic effects between active ingredients** : The effects of the combined ingredients are more important than the simple sum of their individual effects. For example, ferulic acid helps stabilize and boost the effectiveness of vitamin C. Niacinamide helps improve overall results for more beautiful skin and improves skin texture and tone.
- ✓ **Lightening effect, radiance and complexion unifier** : Reduces the appearance of stains. Evens skin tone. Luminous complexion.
- ✓ **Light texture** : Fast absorption, feeling of lightness and freshness. Easily combines with other treatments in the routine.

celestetic. | 15
